## Beyond Survival's Mission, Vision, and Values

Beyond Survival's mission is to provide support, educate, and empower all people impacted by sexual abuse and assault.

Beyond Survival is a community sexual assault program. We strive to create a community that supports open conversations concerning sexual abuse/assault and to dispel the myths and stigmas associated by their impacts. We want to create a better understanding of the dynamics of power and control while upholding accountability through prevention and awareness.

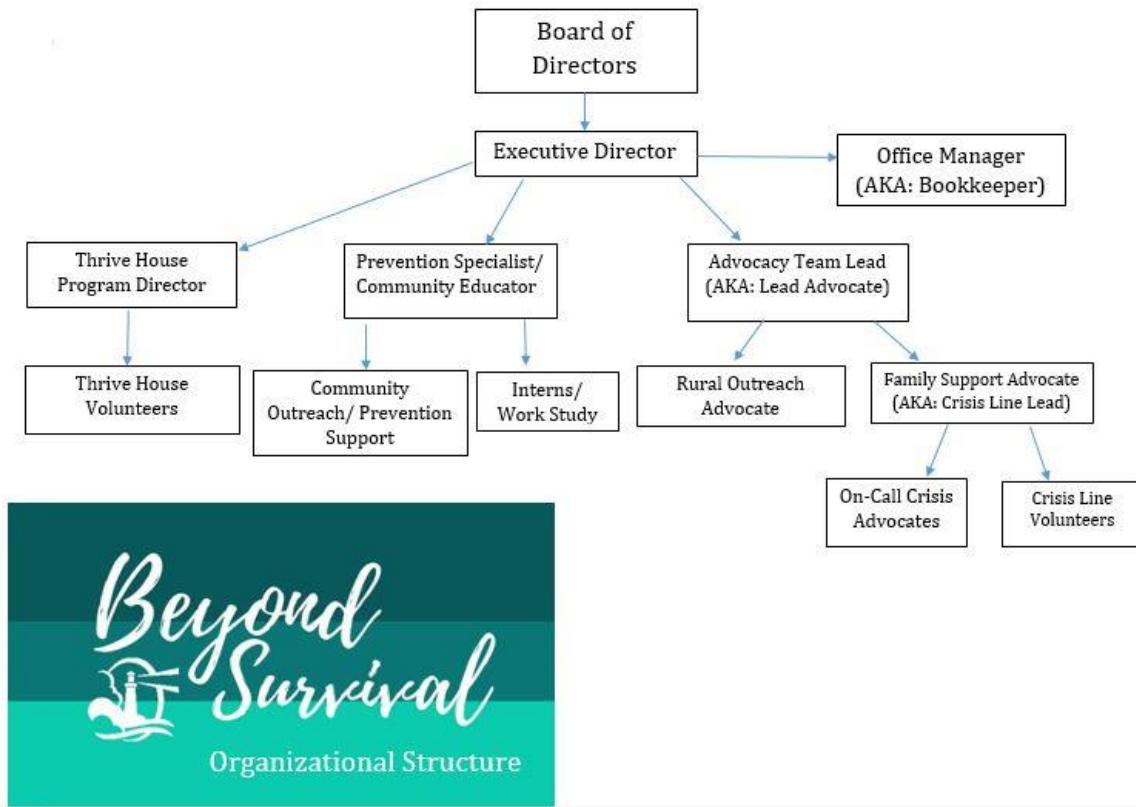

Beyond Survival supports the rights of people to have access to free, quality information, advocacy, crisis intervention, treatment, education, and prevention services. Our programs serve survivors, the general public, and friends and family of folks impacted by sexual assault/abuse. We believe that all survivors of sexual assault should be treated with dignity and respect by service providers and other in the legal, medical, and social services system. We believe children have an absolute right to safety, non-violence, protection by adults, and access to developmentally appropriate intervention and treatment services. We support the right of all survivors to make informed choices about reporting, prosecution, pregnancy, future safety, and other issues raised by their individual experiences.
